

How to Deposit a Check With Your Mobile App

From your main screen, click the “deposit” blue block then “Get Started!”

You will enter your name and email address and click “continue”.

Choose which account you want to authorize the funds to be deposited into.

Your enrollment for mobile deposits is submitted. You will notice the status is “pending”. Once this is approved, it will change to “Enrolled” and you’re ready to go. Once you are enrolled, you will not have to enter steps 1 and 2 for future deposits.

Your request is being processed. If an account requires additional approval, a notification will be sent when it has been enabled for deposits.

Enter the amount of the check and “continue”.

You will then be prompted to allow Eagle to access your camera. In order to be able to do mobile deposits, you will need to allow this.

Make sure you sign the back of the check and write your account number under your signature.
